100,000 natives; Dakota next, Min INTERESTING CENSUS PIGURES. nesota and California, in all of which the foreigners equal more than 50 per Among the other interesting de- cent, of the natives. Utab is eighth velopments of the late census, is the on the list, Wisconsin and Idaho, relation of the seres. A bulletin just with those above mentioned, having a issued from the census office shows bigher percentage of foreign populathat relation in the several states and tion than she. In this territory the territories, and in the country at foreign-born persons number as large, with a summary of the changes 43,943 to 100,000 natives. North during the past decade. From the Carolina has but 263 foreign-born table it is seen that in thirty of the states the males are in excess of the Fiorida (3,773 to 100,000), Louisiana females. These are as follows, in their order, beginning with Missisto 100,000 the southern states are sippi, which has at the rate of 99, practically without foreign element. 527 females to 100,000 males, and In twelve of the states the foreign ending with Montana, where the element has increased during the ending with Montana, where to 100,000 ratio is 35,053 females to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 natives, and the lowest being in Virginia, Indiana, Illinois, Wiscons Washington Ierritory—225 to 100,000 washington Ierritory—225 to 100,000 past to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in Dakota—10,703 to 100,000 past decade, the highest increase being in the past decade, the highest increase being inc sin, Utah (93,240 females to, 100,000 000 natives. In the other thirty-one maies), Arkaness, Missouri, Iows, states and territories the proportion Teras, Michigan, Minnesota, New of foreign to native population has Mexico, Kanssa, Nebraska, Oregon, dacreased, the ratio of decrease being California, Dakota, Washington, greatest in Arisona—85,309 to 100. Colorado, Idaho, Neyada, Wyoming, 000 natives, and the least in North Arimna and Montana, There are Carolina—21 to 100,000. The desevanteen states (including the Distance of the foreign element in frict of Columbia) in which females Utah has been fourth in the list, beare in excess. The greatest excess is ginning at the nighest, the ratio here in the District of Columbia, where being 10,800 in 100,000. In the the fomales outpumber the males as United States, as a whole, there is a 112,501 to 100,000. The least excess relative decrease of the foreign eleis in Pennsylvania, where there are ment to the extent of 1,516 on an 100,445 females to 100,000 males sseumed total native population of The excess occurs in the following 100,000, showing that in the whole states, and in the order named: Discountry, as well as in a majority of trict of Columbia, Rhode Island, the states, native increase has gained Massachusetts, Connecticut, North upon foreign immigration. The in-Carolina, New Hampshire, South creves of the toroign element bas been Carolina, New York, Virginia, Alain New England, where the growth bama, Maryland, Maine, Georgia, has been in the direction of manu-New Jersey, Louisians, Tennessee factures; in Dakota and Oregon, ent of the census comments upon the whose wheat fields have invited settlement; and in Colorado and New table as follows: Mexico, where an extraordinary de velopment of the mining industry bas

As will be assised, the prepoderance of females is in the atlantic region. In the whole tier of States which its slong taken place since 1871.

this const, who the fole exception of Delaware, females are in excess.

Of the States along the Gulf, there are more females than muses in Alabama and Louisiana. These, with Tennessee in the interior, are the only States in which females are in oxcess. This excess reaches its maximum in the District of Columbia. In the southern parties of this tier of States the excess is but slight, while in the northern part it is very this tier of States the excess is but alight; white in the northern part it is very feedded, Elbuwing markedly the effect of he westward emigration of the main lement, and of the existence of manualities of a class which especially emolog femals labor, such as the manualities of boots and shoes, of paper, and f cotten goods. In the Ministippi alley the excess is sightly on the side of the main, indicating that the population of that region is not a nore all one, numeration entering to disturb the natural proportion of the sexes. The most oportion of the sexes. The mos-cases of the excess of males are a the Territories and newer States or the West, where attlement is recent, whose immigestion is still active, and where the luxuries and comforts of life Territories and newer States of are greatly abriged by the necessities of frontier existence. Especially is this true in those States and Territories frontier entitience. Especially is this true in the constant of the constant o

Utah, too, is peopled mainly by a settled community of farmers having families. The existence of polygamy, also, gues to account for the existence of polygamy, also, gues to account for the meaning equal proportion of femilies in this Territory, in spite of its comparatively recant settlement.

The changes since 1870 in the relative proportion of the exce, as expressed by the number of temsles to 100,000 males, is quite marked in some states, but in others it is acarcely perceptible. For instance in Massachusetts the increase in the proportion of temsles to the 100,000 males has been but 14, while in Idah, the increase has been 26,361 In Colorado the proportion of temsles has decreased 10,394. There has been a female decrease in twenty-four states and territories—the decrease in Indiana (1884) being the formers.

The existence of polygamy, also, guest to position of him by his repudiation opinions. Would be there are pudiation opinions. Would be the served at any of October, shall be for feited to and shall be liable to be killed beyen? He reviewed the redictions and Rhidleberger, along the treatment of the United States vote for Riddleberger? He reviewed the rediction that Mahone and Rhidleberger, showing they were democrats and repudiators.

Dawes suggested that Mahone was sick and Johnston proposed to postpone his resolution.

Dawes refused.

Logan asked what effect the election of sergent-at-arms would have on the public credit.

Johnston said by electing him they endorsed his record, and quoted from republican papers condemning Riddleberger.

Legan asked if Johnston heid that because the republicant and the Introduced to the United States vote for Riddleberger, the reviewed the rediction that the list day of October, shall be for feited to and shall be for the United States vote for Riddleberger, along the reviewed the rediction.

Dawes suggested that Mahone and Rhidleberger, based to promise the reviewed the rediction of serg for the proportion of lease or asset 10,394. There has been a smale decrease in twenty-four states and territories—the decrease of londed in the number of traces in which a decrease of females bas been to being 3,460 in the decrease here being 3,460 in 100,000. The decrease has been greater in Utah than in any other section, except New Mexico (9.747) and Colorado (10,394). The proper tion of females has increased for some particular forms and the republic faith and credit, and by clearly three states and territories, being to public faith and credit, and by clearly three states and territories. In this was a living issue of public faith and credit, and by clearly three states and territories. Logan denied that he ever entropy the complete Treatise and remarkable forms and the complete treatise and remarkable forms. It does not not only a local, but a constitutional cure at any stage. One package generally clearly the most increased for public faith and credit, and by a local, but a constitutional cure at any stage. One package generally clearly the most increase of public faith and credit, and by a local, but a constitutional cure at any stage. One package generally clearly the most increase of public faith and credit, and by a local, but a constitutional cure at any stage. One package generally clearly the most increase of public faith and credit, and by a local, but a constitutional cure at any stage. One package generally clearly the most increase of the public faith and credit, and by a local, but a constitutional cure at any stage. One package generally clearly three cured, mailed free. The sufficed case are for to:

In the proper time to decrease of the public and the republic faith and credit, and by a local, but a constitutional cure at any stage. One package generally clearly the most important medical discovery stree vaccions. The means of the public faith and credit in the much the proper time to pub cluded in the list. In the United points.

States as 'a whole, there is a loss of Logan denied that he ever endorsed repediation. If Johnston's constituency had been as honest as the last decade. The superintendent of the census further comments:

Tree. The stilleted can refer to:

Dr. W. H. TRUELDELL, Eigin, Ills.;

Mrs. H. Harrer, 768 Stone St., Denter of the census further comments:

Would not be before Virginia's people would not be before Virginia's people.

In old, settled agricultural communities, the sexes should be very nearly equal in number, female being sliched provement of Virginia's financial provement of Virginia's provement of Virginia's financial provement of Virginia's financial provement of Virginia's provemen In old, settled agricultural communi-ties, the sexes should be very nearly equal in number, females being slightly

ever, this progress has been midely in-terrupted by the great and rapid devel-opment of the mineral resources during the last two years, which has drawn to that state a vast male immigration. In New Mexico the conditions of the ex-ted Mexican population have been dis-ticed Mexican population have been dis-turbed by the influx of a white, male element drawn there by mining and by the rapid construction of railroads. The the rapid construction of railroads. The case is very similar in Utah, and, though to a less entent, in Texas.
